The screenshot displays the Postman API client interface. The top navigation bar includes 'Home', 'Workspaces', and 'API Network'. A search bar for 'Search Postman' and a keyboard shortcut 'Ctrl K' are present. On the right, there are buttons for 'Invite', 'Upgrade', and a minus sign. The left sidebar shows a 'Loading..' status, 'New' and 'Import' buttons, and a 'Collections' section with a search bar. Below this, there are 'Environments', 'Flows', and 'History' sections. The main workspace is titled 'New Collection / New Request'. It shows a 'GET' request to 'http://localhost:8080/tasks/64'. The 'Body' tab is selected, showing a JSON payload:

```
{
  "id": 64,
  "title": "Posting new porject",
  "description": "i am creating new task",
  "status": "working on a project"
}
```

. The response status is '200 OK' with a time of '6 ms' and a size of '274 B'. The response body is also shown in JSON format:

```
{
  "id": 64,
  "title": "Posting new porject",
  "description": "i am creating new task",
  "status": "working on a project"
}
```

. The bottom status bar includes 'Postbot', 'Runner', 'Start Proxy', 'Cookies', 'Vault', 'Trash', and a help icon.
